Answer all questions. If a question does not apply to your operation, mark the blank N/A. If questions do not fully explain your operation, submit additional backup data.

1. \_\_\_\_\_  
(Name) (P.O. Box or Street Address)

\_\_\_\_\_

(City) (State) (Zip Code) (Telephone Number)

\_\_\_\_\_

(Email Address)

2. \_\_\_\_\_  
(Project Name) (P.O. Box or Street Address)

\_\_\_\_\_

(City) (State) (Zip Code) (Telephone Number)

\_\_\_\_\_

(Real Estate #)

3. A fee of \$70.00 is required to be paid before the Authority will process the request.

4. Sign and date the request and forward to above address-Engineering Department.

5. **FIRE FLOW SERVICE CONSIDERATIONS**

The provision of adequate fire flow service to a new development by the FKAA is not always possible. In many instances, adequate fire flow service must be provided by the construction of on-site facilities by the developer.

The amount of fire flow service to be provided will be determined by Florida Building Code, Monroe County Fire Department requirements, and the developer's Design Engineer prior to construction and shall be in accordance with applicable insurance requirements.

It is the responsibility of the developer's design engineer to determine the fire flow service requirements. The FKAA Engineering Department will determine in each instance the adequacy of the FKAA water system to provide the needed fire flow as determined by the developer's design engineer.
