FLORIDA KEYS AQUEDUCT AUTHORITY

ANNUAL COMPREHENSIVE FINANCIAL REPORT

FOR FISCAL YEAR ENDED SEPTEMBER 30, 2022

PREPARED BY:

CINDY KONDZIELA, DIRECTOR OF FINANCE

FINANCE DEPARTMENT

This page is intentionally left blank

VISION

THE FLORIDA KEYS AQUEDUCT AUTHORITY WILL BE RECOGNIZED NATIONALLY AS A LEADER IN THE PROVISION OF SAFE, RELIABLE WATER AND WASTEWATER SERVICES BY SEAMLESSLY INTEGRATING ADVANCED TECHNOLOGY TO ENHANCE THE CUSTOMER EXPERIENCE AND MAXIMIZE EFFICIENCIES, WHILE LEADING AS WELL IN ENVIRONMENTAL AWARENESS AND RESOURCE PROTECTION.

MISSION STATEMENT

THE FLORIDA KEYS AQUEDUCT AUTHORITY IS A NATIONALLY RENOWNED AND COMMUNITY ORIENTED PUBLICLY OWNED UTILITY THAT PROVIDES RELIABLE SAFE AND EFFICIENT WATER AND WASTEWATER SERVICES IN A FISCALLY AND ENVIRONMENTALLY RESPONSIBLE MANNER WITH A HIGHLY TRAINED PROFESSIONAL AND DEDICATED TEAM OF EMPLOYEES.

VALUES

TO ACHIEVE OUR MISSION, THE AUTHORITY IS COMMITTED TO THE FOLLOWING VALUES:

- CUSTOMER SATISFACTION
- EXCELLENT WATER QUALITY
- COMMUNITY INVOLVEMENT
- STRONG WORKING RELATIONSHIPS WITH MUNICIPAL, COUNTY, STATE AND FEDERAL GOVERNMENT AGENCIES
- EMPLOYEE DEVELOPMENT, COMMUNICATION AND CAREER GROWTH
- WELL MAINTAINED, RELIABLE AND SECURE SYSTEMS
- FINANCIAL STABILITY
- COST EFFECTIVE SERVICES
- PROTECTION OF ENVIRONMENTAL RESOURCES

24 MGD LIME SOFTENING WATER TREATMENT PLANT

10 BISCAYNE AQUIFER SUPPLY WELLS

5 FLORIDAN AQUIFER SUPPLY WELLS

6 MGD BRACKISH WATER REVERSE OSMOSIS PLANT

2 SEAWATER REVERSE OSMOSIS PLANTS (3MGD TOTAL CAPACITY)

197 MILES OF STEEL AND DUCTILE IRON TRANSMISSION MAIN (18"-36") AT UP TO 250 PSI

6 TRANSMISSION BOOSTER AND BACK PUMP STATIONS

43 BRIDGE CROSSINGS

46.4 MG CAPACITY IN 33 STORAGE TANKS

668 MILES OF POTABLE WATER DISTRIBUTION MAIN AT UP TO 55 PSI

26 PUMPING STATIONS

6 WASTEWATER TREATMENT PLANTS

252 MILES OF WASTEWATER COLLECTION AND FORCE MAIN LINES

25 MILES OF RECLAIMED DISTRIBUTION WATER LINES

Message from the Executive Director

Greg Veliz

On behalf of the Board of Directors and staff of the Florida Keys Aqueduct Authority, I am pleased to submit this Annual Comprehensive Financial Report for our fiscal year ended September 30, 2022.

The Authority continues to remain in a sound financial condition, both from a net revenue and a liquidity standpoint. Water revenue showed a slight increase from the previous year due to the upsurge in tourism and the stabilizing economy. Operating expenses have increased due to the rise in inflation and cost of goods.

Construction has been completed on the new Joe Pinder Administration building, receiving the Green Achievement Award from Florida Green Building Coalition (FGBC). The Authority has been successful in obtaining grant funding for the construction of the Islamorada transmission line. This project will continue the progress of the aggressive Capital Improvement Plan to strengthen its infrastructure.

The replacement of the FCAA's transmission line throughout the Keys will be the largest capital project the Authority has undertaken. The original pipe was installed in the early 1980's, nearing the end of the expected useful lifespan. Starting at Upper Matecumbe Key, the pipe replacement will then continue to Plantation Key and carry on through the remaining Florida Keys.

I hope this Annual Comprehensive Financial Report is informative and useful to you. Budgets and other financial information are available at our website, fkaa.com.

Respectfully submitted,

Greg Veliz

March 10, 2023

Message from Management

Florida Statutes require that government entities submit to the Auditor General a complete set of financial statements presented in conformity with U.S. generally accepted accounting principles (GAAP) and audited in accordance with U.S. generally accepted auditing standards and government auditing standards by a firm of licensed certified public accountants and submitted to the Auditor General of the State of Florida within the earlier of 45 days after the completion of the audit report but no later than nine months after the close of each fiscal year. Pursuant to that requirement, we are pleased to issue this Annual Comprehensive Financial Report of the Florida Keys Aqueduct Authority (the Authority) for the fiscal year ended September 30, 2022.

This report consists of management's representations concerning the finances of the Authority. Consequently, management assumes full responsibility for the completeness and reliability of all information presented in this report. To provide a reasonable basis for making these representations, management of the Authority has established a comprehensive internal control framework that is designed both to protect its assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Authority's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Authority's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief this financial report is complete and reliable in all material respects.

The Authority's financial statements have been audited by Marcum LLP, Certified Public Accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Authority for the fiscal year ended September 30, 2022, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the Authority's financial statements for the fiscal year ended September 30, 2022, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Authority's MD&A can be found immediately following the report of the independent auditors.

Profile Of The Authority

History and Purpose

In 1937, the legislature of the State of Florida created the Florida Keys Aqueduct Commission, the predecessor to the Authority. The Commission's purpose, working with the US Navy, the City of Key West and Monroe County was obtaining, supplying and distributing potable water to the Florida Keys. In 1970, the Authority was established by the state legislature to succeed the Commission as the sole provider of potable water. The Authority currently operates under Special Legislation 76-441, Laws of Florida, as amended.

The Authority provides potable water for over 50,000 customers in the Florida Keys, a series of islands at the southern tip of the Florida peninsula. The Authority also provides wastewater collection and treatment in certain areas of the Florida Keys. The Florida Keys extend approximately 130 miles from the Florida mainland and are connected by 43 bridges. The reporting entity consists of the operations of the water and wastewater utility.

The Authority is governed by a five-member board of directors appointed by the Governor of the State of Florida from districts identical to the county commission districts in Monroe County. Members serve four-year terms. The board employs an executive director who is the chief executive officer of the Authority.

Budgetary Control

In accordance with the Authority's enabling legislation, the board holds public hearings and subsequently adopts an annual budget at least 30 days prior to the beginning of its fiscal year. The budget is adopted on a basis consistent with GAAP except no amounts are provided for non-cash expenses such as depreciation, amortization and post-retirement benefits. The budget is monitored at various levels of detail by management. Total expenditures may not legally exceed the total budget, as adopted, without amendment by the board.

The Authority's Facilities

The Authority has made significant improvements to its infrastructure over the years to provide expanded service and accommodate increased demand. The majority of the original transmission line constructed in the 1940s by the US Navy was replaced in the early 1980s. The Authority then established a long-range capital improvement master plan to address anticipated future water demands. This master plan was expanded to include wastewater projects in 1998 and a long-term water supply plan was updated in 2022 and will be incorporated into planning goals in the Authority's strategic plan.

An overview of the Authority's facilities follows.

Profile Of The Authority (continued)

Well Fields

The Authority draws its primary raw water supply from the Biscayne Aquifer through ten wells with average depths of 50 to 60 feet and five Floridan Aquifer wells with depths of about 1,500 feet. The well field is adjacent to the outskirts of Everglades National Park and is within an environmentally protected pine rockland. The location of the well field, along with restrictions enforced by state and local regulatory agencies, contribute to the unusually high quality of the raw water, which meets all federal and state finished drinking water standards prior to any treatment.

The Authority is permitted by the South Florida Water Management District (SFWMD) to withdraw its supply of raw water. The Authority's water use permit allows for an average daily withdrawal from the Biscayne Aquifer of 17.79 mgd and a maximum daily withdrawal of 23.79 mgd. However, the permit contains certain limitations in the event of severe drought. The permit also allows the Authority to withdraw up to 8 mgd of brackish water from the deeper Floridan aquifer to treat through reverse osmosis. The permit is effective until 2028, but the Authority may request additional allocations if the water supply is insufficient.

Water Production and Treatment Facilities

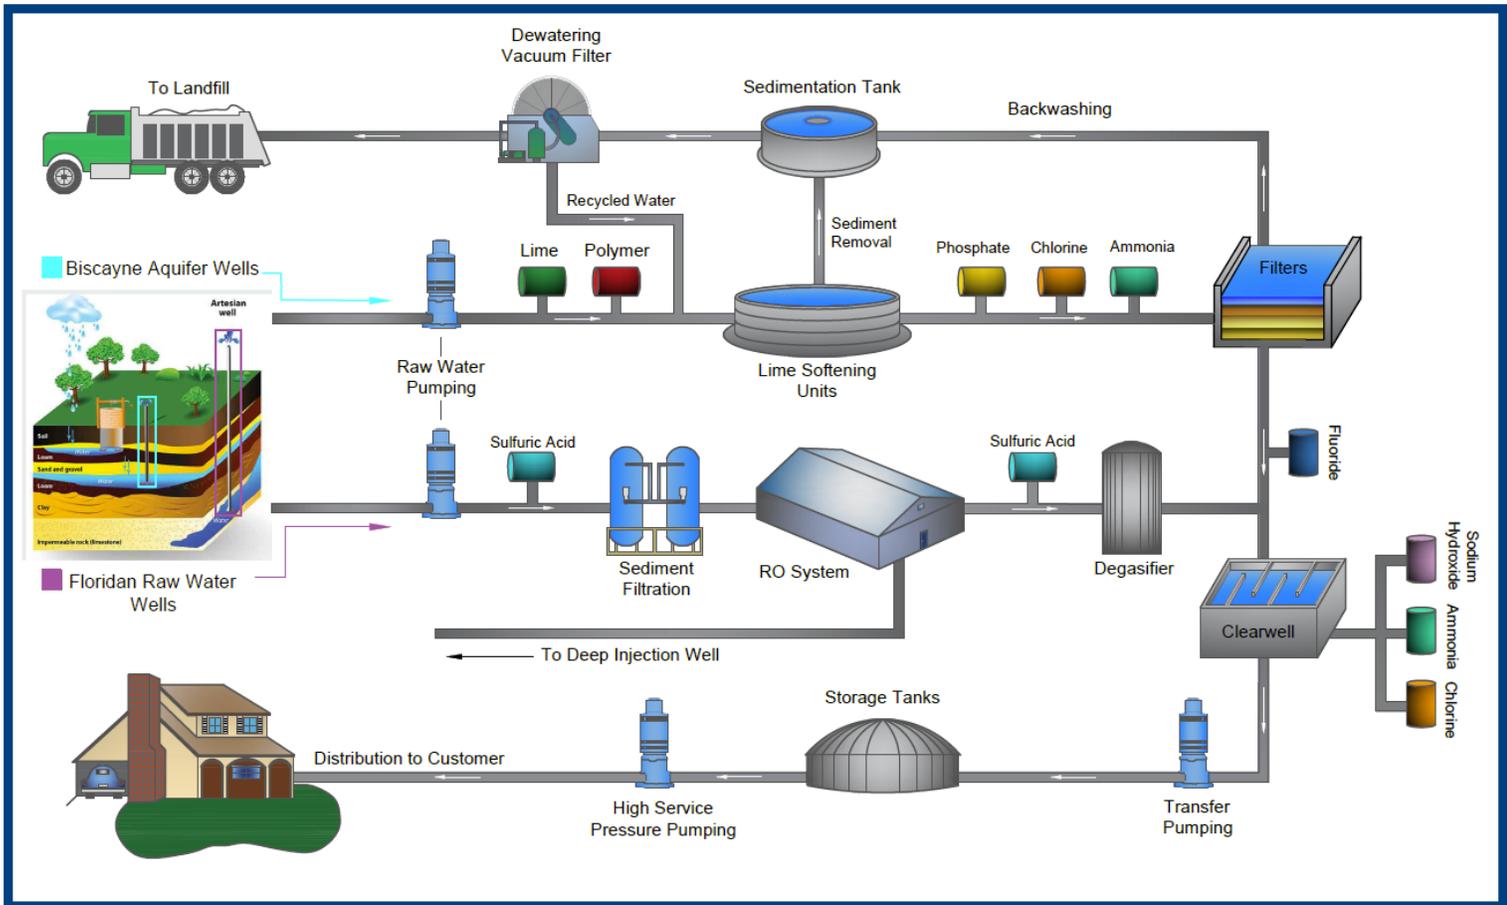

The Authority's primary water production facilities are a lime softening plant that treats water withdrawn from the Biscayne Aquifer and a reverse osmosis plant that treats brackish water withdrawn from the deeper Floridan Aquifer. Water treated at these two facilities is then blended and disinfected before entering the transmission line. The lime softening plant has an ultimate design production capacity of 23.79 million gallons per day (mgd). The water treatment process consists primarily of lime softening, filtration, disinfection and fluoridation. The reverse osmosis plant has a design capacity of 6 mgd. Brackish water is forced through membranes to remove chlorides and impurities. Adjacent to these treatment facilities are water storage tanks, high service pumping equipment, emergency diesel generators, a control center for transmission telemetry, and a state-certified water quality testing laboratory. The Authority also maintains seawater reverse osmosis facilities in Stock Island and Marathon capable of producing 2 mgd and 1 mgd, respectively. These facilities were constructed primarily for emergency operations in the event of a major transmission main interruption.

The remainder of this page is intentionally left blank

Profile Of The Authority (continued)

Water Production and Treatment Facilities (continued)

The following diagram illustrates the water treatment process.

Profile Of The Authority (continued)

Water Transmission and Distribution Systems

The Authority maintains approximately 187 miles of transmission main and approximately 690 miles of distribution lines. The transmission main ranges in size from 36 inches leaving the water treatment plant in Florida City to 18 inches at the end of the line in Key West and in areas with redundant lines. The Authority operates transmission pump stations at the water treatment plant in Florida City, Key Largo, Long Key, Marathon, and Ramrod Key. These pump stations boost the water pressure to meet water demands throughout the service area. A pumping station on Stock Island just outside of Key West can also pump water in the other direction in the event of a line break. The stations have pumps with electric variable speed drives as well as diesel engine drives for emergencies. The Authority also operates 20 distribution pump stations located throughout the service area to maintain water pressure in the distribution system.

Wastewater Treatment Facilities

The Authority owns and operates wastewater treatment facilities in Bay Point, Duck Key, Big Coppitt, Cudjoe Key, and Layton, Florida. The Authority operated facilities in Big Coppitt, and Duck Key that were owned by Monroe County. In October 2021, Monroe County transferred ownership of their wastewater facilities to the Authority. Monroe County Commissioners adopted a resolution approving the transfer of ownership of county owned wastewater assets located in Big Coppitt, Cudjoe Key, Duck Key and Long Key. Total construction costs of these assets were approximately \$260 million. The Authority is also finalizing construction on a wastewater treatment facility on Cross Key that will be operational by the end of the fiscal year.

Wastewater Transmission and Collection Systems

The Authority's wastewater collection systems are comprised of gravity, low pressure and vacuum systems. There are also transmission force mains that carry the influent from the collection systems to the wastewater treatment facilities.

Reclaimed Water Distribution Systems

The Authority has reclaimed water lines that supply non-potable water from effluent produced by wastewater treatment facilities to all of Duck Key and limited areas of Big Coppitt Key and Shark Key.

The Authority's Operations

Engineering and Operations

The Authority's engineering group is responsible for implementing the Authority's capital improvement plan, coordinating and inspecting construction projects, assessing system development fees, designing in-house distribution projects, and maintaining drawings and records of the Authority's systems. The Authority maintains system data on a geographic information system (GIS), which stores infrastructure attributes and other relevant data based on physical geographic location. This data includes, among other things, the size and type of pipe, valves, meters, fire hydrants, vacuum pits, lift stations and other system components as well as the date the component was installed.

Due to the linear geography of the Florida Keys, operations crews and facilities must be located throughout the service area. In addition to operating the system, these crews respond to line breaks and other service interruptions, perform scheduled preventive maintenance and leak surveys, and maintain facilities and structures. For optimal response to any service request, the Authority maintains a materials inventory of over 2,250 items in three warehouses throughout the service area to draw upon in case of emergency.

Profile Of The Authority (continued)

Water Quality

The water quality team is responsible for assuring that the Authority's water supply meets the highest quality standards possible for safety, aesthetics and taste. The Authority employs staff that is certified in the treatment, testing, monitoring and distribution of the water supply. Water is tested regularly, both prior to and after treatment to ensure that it complies with or surpasses all federal and state water quality requirements. An annual consumer confidence report is provided to Authority customers each year. See the statistical section of this report for drinking water quality standards and analyses included in the current consumer confidence report.

Protection of the groundwater source from potential pollution is a very important water quality issue. The Authority has entered into an ongoing agreement with the Miami-Dade County Department of Environmental Resource Management (DERM) to regulate and manage issues relating to the protection of the Authority's well field. DERM monitors ground and surface water to establish water quality trends, enforces laws against illegal discharges, protects important aquifer recharge areas, and regulates underground storage tanks, liquid waste haulers and other hazardous waste.

The Authority monitors, on a monthly basis, a network of monitoring wells and structures for saltwater intrusion. This network includes 13 Authority-owned wells and three United States Geological Survey wells. These 16 sites provide valuable information on the location, movement and velocity of the saline/fresh-water interface.

The Authority uses chloramines as its primary disinfecting agent. Chloramines, though not as strong as free chlorine, remain more stable and do not produce potentially harmful by-products. The Authority performs bacteriological testing on samples taken from approximately 100 sample sites throughout the system to ensure that appropriate disinfection is taking place. In the state of Florida, water utilities are required to establish an ongoing cross-connection control program to detect and prevent cross-connections that may create a potential health hazard. A cross-connection is any physical connection between the water supply and any private piping arrangement that contains a foreign liquid or substance. To prevent potential backflow from such an arrangement, the Authority must either discontinue water service until the cross-connection is eliminated or require the installation of an approved backflow prevention device.

Information Technology

The Authority's Information Technology group is responsible for all business software, telephone and radio networks and the data information network that runs the length of the system. This group is also responsible for implementing the technology master plan. This plan provides a strategy for future changes and improvements to the Authority's technology infrastructure over the next five to ten years.

Customer Service and Administration

The Authority has customer service locations in Key West, Marathon and Tavernier, Florida. Customer service representatives are available at each location to initiate service, collect monthly payments and assist customers with service requests. However, about 85% of customers pay their bills electronically through either automatic payment, online payments or through an automated phone system. Customer service representatives read water meters through radio transmissions either remotely or from a service vehicle in the field. The Authority's administrative offices, including the executive office, human resources, finance, billing and purchasing, are located in Key West.

Profile Of The Authority (continued)

Factors Affecting Financial Condition

The information presented in the financial statements is best understood when it is considered from the broader perspective of the specific environment within which the Authority operates.

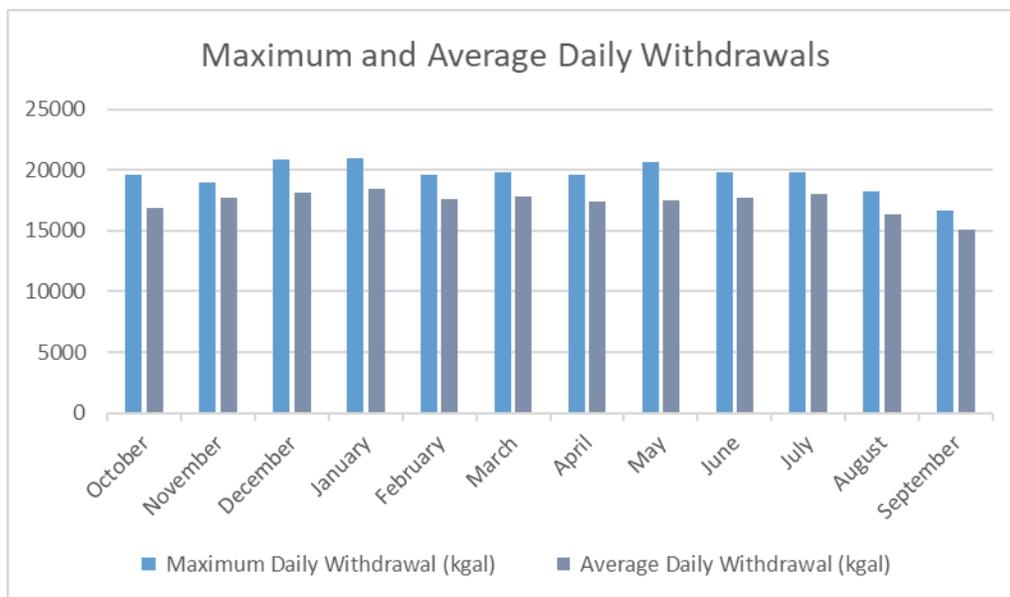

Local Economy and Demand Trends

The primary industries in the Authority’s service area are related to tourism. Other industries include military operations, government and commercial fishing. Many residents are in the service area for only part of the year. The permanent year-round population of Monroe County is approximately 82,000 residents. The average functional population, defined as the sum of the permanent population and the peak seasonal population, is estimated by the Monroe County Growth Management Division to be approximately 150,000. Therefore, the demands on the water system are highly seasonal.

Water demand hit a 10-year low in 2013 but increased in the following years as the economy recovered. Demand decreased slightly in 2020 due to the economic conditions related to COVID-19. The tourist economy was affected during the months of the economic shutdown and increased dramatically once businesses and hotels reopened. Unemployment is among the lowest in the state of Florida.

Monroe County has one of the lowest water consumption levels per capita in the state of Florida. The primary reasons are that customers are accustomed to conserving water due to the historically limited supply and in response to frequent severe drought conditions in South Florida. Customers are also using less to save on monthly utility bills now that many have a wastewater charge for the first time.

The graph below shows the maximum and average day withdrawals from the Biscayne aquifer in fiscal year 2022. Due to severe drought conditions that occur in South Florida from time to time, permanent mandatory water use restrictions from the South Florida Water Management (SFWMD) are now in place.

Profile Of The Authority (continued)

Long-Range Financial Planning

The Authority's capital improvement plan is projected to require about \$190.8 million over the next five years. Most of these projects are either improvements to aging infrastructure or new technologies to improve efficiency and reliability of the system. The Authority anticipates funding these improvements with system development fees, bond proceeds, grants and rate revenue.

The Authority's current rate structure has a base facility charge that provides revenue stability independent of water usage and offsets some of the fixed costs incurred to maintain service for all potential users of the system. Inverted rate blocks for water flows were designed to discourage excessive consumption and encourage further water conservation. Single family residential wastewater customers are only billed for flows up to 10,000 gallons per month. All rates are indexed each year to compensate for inflation.

FCAA Awards

Certificate of Achievement for Excellence in Financial Reporting

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Authority for its annual comprehensive financial report for the fiscal year ended September 30, 2021. This was the 31st consecutive year that the Authority has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. The Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Distinguished Budget Presentation Award

The GFOA awarded the Florida Keys Aqueduct Authority the Distinguished Budget Presentation Award for fiscal year beginning October 1, 2021. This was the 16th consecutive year that the Authority has achieved this award. In order to receive the budget award, the entity must satisfy nationally recognized guidelines for effective budget presentation. These guidelines are designed to assess how well an entity's budget serves as a policy document, a financial plan, an operations guide and a communications device. The budget must be rated proficient in all four categories to receive the award.

Acknowledgements

The preparation of this annual comprehensive financial report was made possible by the dedicated service of the entire staff of the Authority. Each participant has our sincere appreciation for the contributions made in support of this report.

Respectfully submitted,

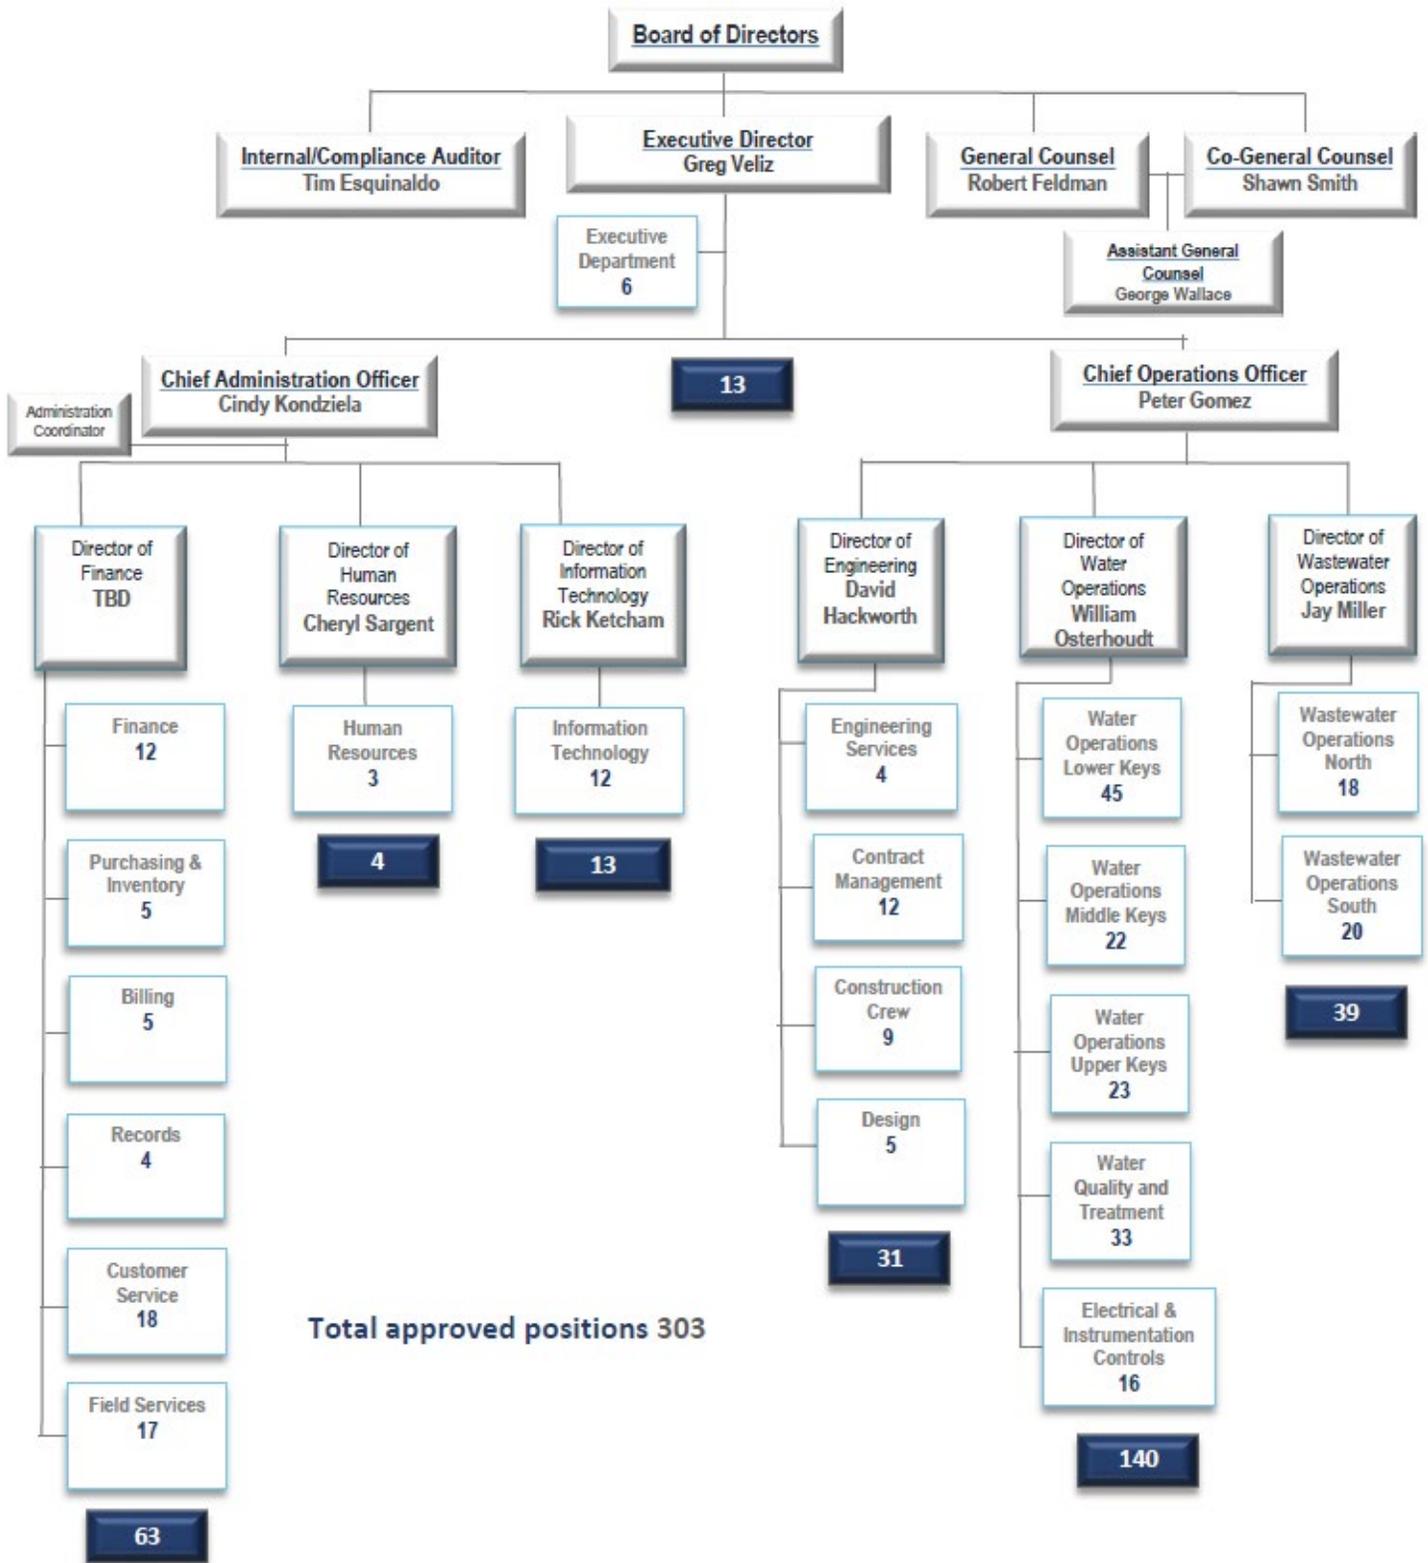

A handwritten signature in blue ink that reads "Greg W. Veliz". The signature is written in a cursive style with a large, sweeping initial "G".

INDEPENDENT AUDITORS' REPORT

To the Audit Committee, Board of Directors, and Executive Director

Florida Keys Aqueduct Authority

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the Florida Keys Aqueduct Authority (the "Authority"), which comprise the statement of net position as of September 30, 2022, and the statements of revenues, expenses, and changes in net position and cash flows for the fiscal year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the Authority as of September 30, 2022, and the respective changes in financial position and cash flows for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Authority and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditors' Report (continued)

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control—related matters that we identified during the audit.

Independent Auditors' Report (continued)

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 31 to 36 and the schedules of changes in total OPEB liability and related ratios, the schedules of the Authority's proportionate share of net pension liability, and schedules of the Authority's contributions on pages 71 and 72, respectively, be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section, other information section, and statistical section, but does not include the basic financial statements and our auditors' report thereon. Our opinion on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Prior Year Comparative Information

We have previously audited the Authority's 2021 financial statements, and our report dated March 11, 2022, expressed an unmodified opinion on those financial statements. In our opinion, the summarized comparative information presented herein as of and for the fiscal year ended September 30, 2021, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Independent Auditors' Report (continued)

Other Reporting Required by *Government Auditing Standard*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 10, 2023 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Authority's internal control over financial reporting and compliance.

Marcum LLP

March 10, 2023

Management's Discussion and Analysis

Our discussion and analysis of the Authority's financial performance provides an overview of the Authority's financial activities for the fiscal year ended September 30, 2022. Please read it in conjunction with the transmittal letter and the Authority's financial statements.

Highlights

Financial highlights

- ✓ The Authority's net position increased by 148% in 2022 due to the ownership transfer of Monroe County wastewater systems to the Authority.
- ✓ Operating revenue increased by 7.3% in 2022 over 2021 and operating expenses increased by approximately \$21 million, a 33.3% increase over 2021.
- ✓ The Authority's depreciation expense has significantly increased in 2022, as compared to 2021, due to the addition of \$272 million of wastewater assets.

Authority highlights

- ✓ The Authority aggressively seeks grant opportunities and has been awarded \$77 million in grant funding to be utilized in the improvement of the Authority's infrastructure.
- ✓ The Authority's capital improvement plan focuses on projects that can improve system resiliency, such as expanded remote water-producing plants and replacement of older, less reliable transmission lines.
- ✓ The Authority has obtained wastewater collection and treatment assets in the amount of \$234 million from Monroe County.

Using This Annual Report

This annual report consists of four parts: introductory, financial, statistical, and reporting sections. The financial section also includes notes that explain in more detail some of the information underlying the financial statements.

Required financial statements

The financial statements of the Authority report information about the Authority using accounting methods similar to those used by private sector companies. These statements offer short-term and long-term financial information about its activities. The statement of net position includes all of the Authority's assets, deferred outflows of resources, liabilities, deferred inflows of resources and provides information about the nature and amounts of investments in resources (assets) and obligations to creditors (liabilities). It also provides the basis for computing rate of return, evaluating the capital structure of the Authority and assessing the liquidity and financial flexibility of the Authority. All of the current year's revenue and expenses are accounted for in the statement of revenue, expenses, and changes in net position. This statement measures the success of the Authority's operations over the past year and can be used to determine profitability, credit worthiness and whether the Authority has successfully recovered all its costs through its user fees and other charges. The third required financial statement is the statement of cash flows. The statement reports cash receipts, cash payments, and net changes in cash resulting from operations, investing, capital and related financing and noncapital financing activities and illustrates the sources of the Authority's cash, how it is spent and the change in total cash during the reporting period.

Management's Discussion and Analysis (continued)

Financial Analysis of the Authority as a Whole

The statement of net position and the statement of revenue, expenses and changes in net position report information about the Authority's activities in a way that helps answer the question of whether the Authority, as a whole, is better or worse off as a result of those activities. These statements report the net position of the Authority and changes in them. The Authority's net position - the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources - is one way to measure its financial health. Over time, increases or decreases in net position are indicators of whether its financial health is improving or deteriorating. However, other non-financial factors such as changes in economic conditions, population growth, and new or changed legislation must be considered as well.

The Authority's net position increased by 148% in 2022. Our condensed analysis below focuses on the Authority's net position (Table 1) and changes in net position (Table 2) during the fiscal year.

Table 1

	2022		2021
Current and other assets	\$ 85,812,746	\$	108,222,410
Capital assets, net	557,812,351		310,138,117
Total assets	643,625,097		418,360,527
Total deferred outflow of resources	28,132,272		33,746,184
Current liabilities	23,691,213		20,544,854
Long-term liabilities	256,110,601		257,648,227
Total liabilities	279,801,814		278,193,081
Total deferred inflow of resources	4,263,049		17,657,527
Net investment in capital assets	374,574,276		136,186,942
Restricted	6,314,161		5,111,864
Unrestricted	6,804,069		14,957,297
Total net position	\$ 387,692,506	\$	156,256,103

Net investment in capital assets increased by approximately 175% in 2022 primarily due to the capital contribution by Monroe County of \$234 million in wastewater assets. Restricted net position increased 23.5% due to the finalization of capital projects with restricted funds and an increase in deposits on customer accounts. Unrestricted net position decreased with the utilization of unrestricted cash for the increase in operating expenditures related to escalated market conditions.

Management's Discussion and Analysis (continued)

Table 2

	2022	2021
Utility revenue water	\$ 65,641,295	\$ 60,909,096
Utility revenue reclaimed water	180,311	174,582
Utility revenue wastewater	11,348,765	10,653,859
Other operating revenue Navy	3,945,373	3,945,373
Other operating revenue	1,817,635	1,608,006
Operating revenue	82,933,379	77,290,916
Less abatements	(361,316)	(483,920)
Total operating revenue	82,572,063	76,806,996
Operating expenses	(85,128,752)	(63,848,163)
Net operating income	(2,556,689)	12,958,833
Non-operating revenue (expenses)		
Interest income	730,217	180,190
Other income	1,437,676	1,947,700
Interest expense and amortization on deferred gain	(7,318,363)	(7,373,604)
Other expenses	(560,042)	(1,257,943)
Total non-operating revenue (expenses)	(5,710,512)	(6,503,657)
Net income (loss) before contributions	(8,267,201)	6,455,176
Capital contributions	239,703,604	4,100,359
Change in net position	231,436,403	10,555,535
Net position, beginning of year	156,256,103	145,700,568
Net position at end of year	\$ 387,692,506	\$ 156,256,103

Water and wastewater revenue has increased by approximately 7.7% and 6.5%, respectfully. This is attributed to a continued increase in tourism. Other operating Navy revenue remained stable. Other operating revenue increased by 13% due to an increase in penalties and service charges on customer accounts. Higher interest rates paid on deposited funds resulted in a significant increase in interest income. A decrease in other income of 32% is in direct relation to the continued closing of FEMA claims for Hurricane Irma. Operating expenses increased by 33.3% due to market instability for goods and services that was experienced nationally. Other expenses decreased due to a decrease in Bond issuance costs based on no new debt this fiscal year.

The Authority's Fund

The Authority's fund is a proprietary fund, which is accounted for similar to a private business. All activities of the Authority are included in this fund.

Management's Discussion and Analysis (continued)

Capital Assets and Debt

Capital assets

At the end of 2022, the Authority had approximately \$557.8 million invested in a broad range of water and wastewater capital assets, including several projects under construction. This amount represents a net increase (including additions, deductions and depreciation) of approximately \$247.6 million.

The following table summarizes the Authority's capital assets, net of accumulated depreciation, for the fiscal years ended September 2022 and 2021.

	2022	2021
Land	\$ 9,573,655	\$ 8,722,655
Buildings, structures & improvements	99,157,300	39,052,716
Equipment, vehicles, furniture & fixtures	10,514,798	9,505,882
Transmission system	45,012,803	37,052,883
Water distribution system	92,536,144	93,896,416
Water meters	3,570,424	3,830,085
Water storage facilities	4,693,338	5,031,237

Reverse osmosis equipment	8,180,294	9,013,265
Computer equipment	287,949	276,786
Wastewater treatment equipment	41,673,503	6,891,369
Wastewater collection equipment	159,297,646	17,964,002
Reclaimed water	8,649,930	3,967,049
Leased Assets	22,377	-
	<u>505,000,342</u>	<u>258,058,538</u>
Construction work in progress	<u>52,812,009</u>	<u>52,079,579</u>
	<u>\$ 557,812,351</u>	<u>\$ 310,138,117</u>

The following table summarizes the changes in capital assets. These changes are presented in detail in Note 4 to the financial statements.

	2022	2021
Balance at beginning of year	\$ 310,138,117	\$ 282,982,350
Additions	272,882,017	19,649,347
Retirements	(1,972,649)	(1,449,827)
Depreciation	(25,806,806)	(14,339,847)
Amortization	(4,796)	-
Accumulated depreciation retired	1,844,038	1,366,207
Net increase in construction work in progress	732,430	21,929,887
Balance at end of year	<u>\$ 557,812,351</u>	<u>\$ 310,138,117</u>

Management’s Discussion and Analysis (continued)

This year’s major additions of \$272 million to utility plant include:

Buildings, structures, improvements and land	\$	65.4	million
Equipment, vehicles, furniture, fixtures and computer equipment		2.5	million
Water distribution system upgrades		3.0	million
Water meters		.03	million
Water transmission system upgrades		9.7	million
Water storage and pump station facilities		.4	million
Water treatment and reverse osmosis equipment		.6	million
Wastewater treatment and collection system		186.1	million
Reclaimed water system		5.0	million

The Authority’s 2023 capital budget plans for investing approximately \$65.2 million in capital projects includes the following:

Water distribution system upgrades	\$	6.4	million
Wastewater system upgrades		5.0	million
Water transmission system upgrades		14.4	million
Water treatment plant upgrades		4.8	million
Facility structure improvements		3.1	million
Reverse osmosis facility		31.5	million

The Authority plans to finance capital projects primarily with cash reserves and the proceeds from issuance of revenue bonds.

Long-term liabilities

On September 30, 2022, the Authority had a total of more than \$196 million in water and wastewater bonds outstanding. The Authority did not issue any new debt for fiscal year 2022. The Authority’s water bonds have underlying ratings of Aa3 by Moody’s, A+ by Standard & Poor’s and AA- by Fitch. Water and wastewater bonds held by a bank are not rated. In conjunction with the issuance of the Series 2006 bonds (later refunded by Series 2008), the Authority entered into a derivative contract with a counterparty that is considered to be an effective hedging instrument. As such, that instrument is recorded as a long-term liability, along with a complementary deferred outflow of resources on the Authority’s statement of net position.

The Authority has a contract with the U.S. Navy to own and manage water distribution and wastewater treatment infrastructure serving Naval Air Station Key West and associated residential properties. This acquisition resulted in a credit due to the Navy that is applied against charges under this contract. The credit is being amortized over twenty years at 4.9% for water and fifty years at 5.0% for wastewater. Long-term liabilities are as follows:

Management's Discussion and Analysis (continued)

	2022	2021
Water and wastewater bonds, net	\$ 196,698,352	\$ 206,049,894
Derivative instrument - swap	3,340,033	10,076,223
Credit due to US government	23,580,448	24,721,514
Lease liability	25,071	-
Compensated absences	3,746,270	3,500,335
Total OPEB liability	10,983,125	10,495,977
Net pension liability	26,404,316	11,497,108
	264,777,615	\$ 266,341,051
Less current portion	(8,667,014)	(8,692,824)
Total Long-term liabilities	\$ 256,110,601	257,648,227

Compensated absences include estimated accrued vacation and sick leave to be paid at retirement. Total other post-employment benefits (OPEB) liabilities represent the actuarial value of the unfunded liability of the Authority's other post-employment benefits due to retirees. More detailed information about the Authority's long-term liabilities is presented in Notes 5, 10 and 11 to the financial statements.

Economic Factors, Next Year's Budget and Rates

The economy within the service area continued to improve in 2022 with low unemployment rates and strong tourism. Tourism made a full recovery after the impacts of the COVID pandemic shutdowns and restrictions and continued to increase this fiscal year. Increased flights to Key West and the convenience of traveling by automobile have made the Florida Keys a desirable vacation destination. The increase in tourism has had a positive effect on the local economy.

Water, wastewater and reclaimed water rates were increased on October 1, 2022, by the annual inflation adjustment of 10.6%.

The Authority's capital improvement plan calls for capital expenditures of about \$190.8 million over the next five years. These expenditures will be funded primarily through existing cash reserves, grants, government loans, rate increases and proceeds from the issuance of revenue bonds. Projects can be deferred or removed from the plan at any time at the discretion of the Authority's board of directors.

Other budget considerations for 2023 are the continued high cost-of-living on recruitment and workforce retention and system hardening due to impacts from future hurricanes, sea level rise, and other potential pandemics or disasters.

The Authority continues to move ahead with wastewater initiatives in the Florida Keys. The Authority currently has about 11,500 wastewater customers and the majority of customers have been connected to the system.

The Florida Keys continue to be at risk for future impacts from hurricanes. While no funds are historically budgeted for these impacts, the possibility does exist. If damages are incurred, the board of directors may be asked to consider a budget amendment to pay for those damages.

Contacting the Authority's Financial Management

This financial report is designed to provide our customers and our creditors with a general overview of the Authority's finances and to demonstrate the Authority's accountability for the money it receives. If you have questions about this report or need additional financial information, visit our website at www.fkaa.com or contact the Authority at 305.296.2454.

Notes to Financial Statements

For the fiscal year ended September 30, 2022

Note 1. Summary of Significant Accounting Policies

The Florida Keys Aqueduct Authority's (the Authority) financial statements comply with generally accepted accounting principles in the United States of America (GAAP) and apply all relevant Governmental Accounting Standards Board (GASB) pronouncements.

Financial Reporting Entity

The Authority complies with GASB Statements defining the financial reporting entity. This statement establishes standards for defining and reporting on the financial reporting entity. It defines component units as legally separate organizations for which the officials of the primary government are financially accountable and there is a benefit or burden relationship and other organizations for which the nature and significance of their relationship with a primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The Authority considered all potential component units in determining what organizations should be included in the financial statements. Based on these criteria, there are no component units to include in the Authority's financial statements.

Basis of Presentation

The Authority's fund is an enterprise fund. Enterprise funds are proprietary funds used to account for business-type activities provided to the general public. These activities are financed primarily by user fees and the measurement of financial activity focuses on net income measurement similar to the private sector. Activities reported in this fund are those costs necessary to provide water and wastewater service and the related user fees levied to pay for these costs.

Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe which transactions are recorded within the various financial statements. Basis of accounting refers to when transactions are recorded regardless of the measurement focus applied. Proprietary funds utilize a measurement focus linked to economic resources. The accounting objectives of this measurement focus are the determination of operating income, changes in net position, financial position, and cash flows. All assets, deferred outflows of resources, liabilities and deferred inflows of resources associated with their activities are reported. Proprietary fund equity is classified as net position. Proprietary funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred.

Proprietary funds distinguish operating revenue and expenses from non-operating items. Operating revenue and expenses generally result from providing services in connection with the proprietary fund's principal ongoing operations. The principal operating revenue of the Authority's enterprise fund is monthly user fees charged to customers for service. The Authority also recognizes as operating revenue fees intended to recover the cost of connecting new customers to the system and other services that relate to the supply of water and the collection and treatment of wastewater. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as non-operating revenue and expenses.

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Summary of Significant Accounting Policies

During fiscal year ended September 30, 2022, the Authority implemented GASB statement No. 87, Leases (GASB 87).

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position

Materials and Supplies

Materials and supplies are stated at cost or average cost.

Capital Assets

Capital assets are recorded at cost for items purchased or constructed and at acquisition value on the date donated for contributed items. The capitalization threshold for tangible and intangible capital assets is \$5,000. Depreciation is computed by the straight-line method based on the estimated useful lives of the asset. It is the Authority's policy to depreciate mass assets half of the year in the year of acquisition and half of the year in the year of retirement. Mass assets are those assets with a large number of homogeneous retirement units such as water meters, distribution systems and collection systems. It is the Authority's policy to depreciate all specifically identified assets based on the month of acquisition or retirement. The Authority evaluates and records impairment losses on long lived assets when events and circumstances indicate that an asset may be impaired. The estimated useful lives of the principal classes of assets are as follows:

Classification	Years
Buildings, structures and improvements	5-40
Equipment, vehicles, furniture and fixtures	3-20
Transmission system	25-50
Distribution systems	25-50
Water meters	10
Water storage facilities	10-50
Pumping stations	5-25
Water treatment equipment	5-30
Reverse osmosis equipment	5-25
Computer equipment	3-5
Wastewater treatment equipment	5-50
Collection systems	25-50

Leased Assets in Service

The Authority has recorded leased assets in service as a result of implementing GASB 87. The leased assets in service are initially measured at an amount equal to the initial measurement of the related lease liability plus any lease payments made prior to the lease term, less lease incentives, and plus ancillary charges necessary to place the lease into service. The leased assets in service are amortized on a straight-line basis over the life of the related lease.

Construction Work in Progress

Construction work in progress represents costs for the construction or replacement of the Authority's infrastructure and other capital projects that were not completed at year end.

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Compensated Absences

It is the Authority's policy to permit employees to accumulate earned, unused vacation and sick leave. Employees may, depending on hire date, level and length of service, be paid for various amounts of their total accrued leave upon termination or retirement. The Authority accrues a liability for leave hours that meet the criteria for payment at the eligible employees' current rates of pay plus retirement contributions and employment taxes.

Long-term Liabilities

Long-term debt and other long-term obligations are reported as liabilities in the Authority's statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issue costs are expensed as incurred.

Interest on Indebtedness

Interest is charged to expense as incurred.

Equity Classifications

Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes, or other borrowings and net of deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets.
- b. Restricted – Assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation, net of related liabilities.
- c. Unrestricted – Residual amounts that do not meet the definition of the two categories above.

Net Position Flow Assumption

Sometimes the Authority will fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts of net position to report as restricted and unrestricted in the financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Authority's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

Deferred Outflows of Resources

The difference between the re-acquisition activities (new debt) and the net carrying value of the old debt on refunded debt transactions is recorded as a deferred outflow of resources and recognized as a component of interest expense using the bonds outstanding method over the shorter of the remaining life of the old debt or the life of the new debt. The cumulative change in the derivative is the change in fair value of the hedging derivative instrument from last year to the current year. The acquisition of the Navy Wastewater system is being amortized over the remaining life of the current debt.

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Deferred Inflows of Resources and Deferred Outflows of Resources Related to Pensions and OPEB

Deferred inflows of resources and deferred outflows of resources related to pensions and OPEB that are derived from the difference between projected and actual earnings on the respective pension plan investments are amortized to pension expense (income) over a closed five-year period. Deferred inflows of resources and deferred outflows of resources related to pensions and OPEB that are derived from differences between expected and actual experience with regard to economic or demographic factors (difference between expected and actual experience) in the measurement of the respective net pension liability and total OPEB liability are amortized to pension expense (income) over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions and OPEB benefits through the respective plan (active and inactive employees) determined as of the beginning of the measurement period. Contributions to the pension plan and OPEB from the employer subsequent to the measurement date of the total liability and before the end of the Authority's reporting period are reported as deferred outflow of resources related to pensions or OPEB. These contributions will be included as a reduction of the net pension liability in the subsequent fiscal year.

Budget

In accordance with the Authority's enabling legislation, the Board holds public hearings and subsequently adopts an annual budget for revenue, operating expenses and capital expenditures. The budget is adopted on a basis consistent with GAAP except no amounts are provided for depreciation and amortization. It is monitored at various levels of detail within the enterprise fund. Expenses at the fund level may not legally exceed the total budget.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, deferred inflows/outflows and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Revenue and Expenses

Operating revenue and expenses for proprietary funds are those that result from providing services and producing and delivering goods or services. It also includes all revenue and expenses not related to capital and related financing, non-capital financing, or investing activities.

Revenue Recognition

All water and wastewater revenues are recognized, and a receivable recorded when the related services are provided. Unbilled revenue and receivables are determined based on the estimated consumption prior to September 30th that has not been billed.

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Grants from Government Agencies

The Authority records grant revenue when all applicable eligibility requirements have been met. This normally occurs as amounts are expended and become reimbursable from the granting agency.

Special Assessments

The Authority provides the option for customers in new wastewater districts to pay system development charges levied for the initial construction of these systems over a twenty-year period through a non-ad valorem assessment. This assessment bears interest equal to the Authority's borrowing rate for that particular district and is added to the customers' annual tax bill.

Comparative Data

The financial statements include certain summarized comparative financial information in total but not by specific level of detail. Such information does not include sufficient detail to constitute a presentation in conformity with GAAP. Accordingly, such information should be read in conjunction with the Authority's financial statements for the fiscal year ended September 30, 2021, from which the summarized information was derived.

Note 2. Cash and Investments

Cash and cash equivalents refer to the value of a company's assets that are cash or can be converted into cash immediately. Cash equivalents include bank accounts and marketable securities, which are debt securities with maturities of less than 90 days. The Authority has invested funds in The Florida Cooperative Liquid Assets Security System (FLCLASS). FLCLASS is an investment pool emphasizing safety, liquidity, and yields as a competitive option for local Florida governments. FLCLASS measures investments at fair value in accordance with Paragraph 41 of Statement 79 and Paragraph 11 of Statement 31, and therefore the Authority's investment in FLCLASS is not required to be categorized within the fair value hierarchy for purposes of Paragraph 81a(2) of GASB 72. FLCLASS is rated by S&P Global Ratings. The current rating is "AAAm". The dollar weighted average days to maturity (WAM) of FLCLASS on September 30, 2022, is 26 days. Next interest rate reset dates for floating rate securities are used in the calculation of WAM. The weighted average life (WAL) of FLClass on September 30, 2022, is 67 days. The Authority had cash balances of \$68,614,679 on September 30, 2022.

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a bank failure, the Authority's deposits may not be returned to it. The Authority does not have a deposit policy for custodial risk. On September 30, 2022, all the Authority's bank deposits, having a bank balance of \$68,341,441 were held by financial institutions designated as Qualified Public Depositories by the Treasurer of the State of Florida. As such, these deposits were covered first by federal depository insurance and the balance covered by the State of Florida's Security for Public Deposits Act. All Qualified Public Depositories, as established by the Act, must place with the State Treasurer eligible collateral equal to or in excess of the required collateral determined by the provisions of the Act. In the event of default by a qualified public depository, the State Treasurer will pay public deposits all losses. Losses in excess of insurance and collateral will be paid through assessments among all Qualified Public Depositories.

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Note 3. Restricted Assets

Restricted assets as of September 30, 2022, consisted of the following:

	2022
Restricted current assets	
Cash	
Debt service	\$ 2,826,415
Reserve for self-retained health care claims	346,340
Bond proceeds held for future projects	21,583,344
	24,756,099
Restricted noncurrent - customer deposits	3,714,740
Total restricted assets	\$ 28,470,839

Bond and Interest Repayment Assets

According to its master bond resolutions, the Authority is required to transfer to a debt service account, on or before the last day of each month, the following amounts:

- Interest – an amount equal to the interest on all outstanding bonds accrued and unpaid and to accrue to the end of the then current calendar month.
- Principal – an amount equal to (a) the principal amount of all outstanding bonds other than term bonds due and unpaid, (b) that portion of the principal amount of the bonds next due which would have accrued on such bonds other than term bonds next due during the then current calendar month if such principal amount thereof were deemed to accrue monthly in equal installments from a date one year preceding the due date of such bonds next due and (c) the portion of the principal amount of the bonds next due which shall have accrued on such basis in prior months.
- Bond amortization – an amount equal to (a) the principal amount of all outstanding term bonds due and unpaid, (b) that portion of the amortization installment which would have accrued during the then current calendar month if such amortization installment were deemed to accrue monthly in equal amounts from a date one year preceding such due date and (c) the portion of such amortization installment which shall have accrued on such basis in prior months.

Customer Deposits

The Authority retains customer deposits to ensure payment from new customers and customers with a history of delinquent payments. These deposits totaled \$3,714,740 as of September 30, 2022.

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Note 4. Capital Assets

Capital asset activity for the fiscal year ended September 30, 2022, is as follows:

	2022			Balance 9/30/2022
	Balance 9/30/2021	Additions	Retirements	
Capital assets not being depreciated:				
Land	\$ 8,722,655	\$ 851,000	\$ -	\$ 9,573,655
Construction work in progress	52,079,579	35,655,602	(34,923,172)	52,812,009

Credit due to US Government-wastewater	17,250,993	-	(110,031)	17,140,962	115,661
Lease liability	-	27,173	(2,102)	25,071	6,782
Compensated absences	3,500,335	3,746,270	(3,500,335)	3,746,270	305,216
Total long-term liabilities	\$ 244,347,966	\$ 3,773,443	\$ (20,731,235)	\$ 227,390,174	\$ 8,667,014

Water Revenue and Water Revenue Refunding Bonds

In June 2008, the Authority issued \$52,625,000 of Series 2008 water revenue refunding bonds. The bonds bear interest at a variable rate that is set each week as the bonds are remarketed (.05% on September 30, 2022). The proceeds from these bonds were used to refund Series 2006 bonds, which were insured by a failed bond insurer. The refunding was necessary in order to replace the bond insurer with a letter of credit. Principal payments will be due annually on September 1 beginning in 2022 through 2037. The interest rate swap that was entered into when the Series 2006 bonds were issued remains in place with the notional amount now tied to the Series 2008 bonds.

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Note 5. Long-term Liabilities (continued)

In April 2015, the Authority issued \$34,560,000 Series 2015A water revenue refunding bonds with an interest rate range of 3.37%-5.00% and privately placed \$16,435,000 Series 2015B water revenue bonds at an interest rate of 2.52% with a bank to refund a portion of the outstanding Series 2007 water revenue bonds (see above). Interest on both series is due March 1 and September 1. Principal on the Series 2015A bonds will be paid on September 1, 2021-2024 and September 1, 2031-2037 for the Series 2015A bonds and September 1, 2018-2022 and September 1, 2025-2030 for the Series 2015B bonds.

In June 2019, the Authority issued \$45,010,000 Series 2019A water revenue bonds with an interest rate of 5%. The proceeds from these bonds will be used to fund the costs of certain capital improvements to the water system. Interest is due March 1 and September 1 and principal will be paid on September 1, 2038-2049.

In March of 2021, the Authority secured future funding of up to \$48,690,000 series 2021A at an interest rate of 2.39% through a low interest government loan program known as the Water Infrastructure Finance and Innovation Act (WIFIA). Up to 49% of total costs may be funded through this agreement for distribution and transmission projects identified by the FCAA. If the FCAA utilizes this funding source, there will be one draw in 2025.

In August of 2021, the Authority issued \$30,915,000 Series 2021B water revenue bonds with an interest rate of 5%. The proceeds from these bonds are to be used to fund distribution and transmission projects that were identified by the Authority for the WIFIA program. Interest is due March 1 and September 1 and paid through fiscal year 2025. Principal will be repaid in one lump sum of \$30,915,000 in fiscal year 2025.

The water revenue and water revenue refunding bonds were issued under the Authority's Resolution No. 03-12 adopted May 6, 2003, and Amended and Restated Resolution 08-15 adopted June 9, 2008. The payment of the principal and interest on these bonds is collateralized by a pledge of and lien upon the net revenues derived from the operation of the Authority's water utility and other monies including investments held in certain accounts established by the bond resolution. Under the bond resolution, the Authority will fix, establish, maintain and collect the water rates and revise the same from time to time, whenever necessary, that will always provide in each fiscal year, (a) net revenues adequate at all times to pay in each fiscal year at least one hundred ten percent (110%) of the annual debt service requirement becoming due in such fiscal year on each series of outstanding bonds and at least one hundred percent (100%) of any amounts required by the terms of the bond resolution to be deposited in the reserve account or reserve account insurance policy in such fiscal year, and (b) net revenues, together with impact fees collected, adequate to pay at least one hundred twenty percent (120%) of the current annual debt service requirement becoming due in such fiscal year on the outstanding bonds. The rates will not be reduced to a level that would be insufficient to provide net revenues fully adequate for the purposes provided by the bond resolution.

For the current year, debt service requirements and total pledged water revenue to meet the 110% test were \$9,913,754 and \$21,284,275, respectively.

Wastewater Revenue Bonds

In September 2012, the Authority privately placed \$5,635,000 Series 2012 wastewater revenue refunding bonds with a bank at an interest rate of 2.86%. The proceeds from this issue were used to refund Series 2001, Series 2004 and Series 2009 wastewater revenue bonds. Interest is payable on March 1 and September 1 and principal is paid annually on September 1 through 2030. On March 1, 2022, the Authority called this bond rendering the bond retired.

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Note 5. Long-term Liabilities (continued)

In November 2016, the Authority privately placed \$10,000,000 series 2016 wastewater revenue bonds with a bank at an interest rate of 1.72%. The proceeds from this issue were used to fund ongoing capital improvements to the wastewater system. Interest is payable on March 1 and September 1 and principal is paid annually on September 1 through 2036.

Wastewater revenue and wastewater revenue refunding bonds were issued under the Authority's Resolution No. 00-20 adopted October 18, 2000, and Resolution No. 01-25 adopted September 19, 2001. The payment of the principal and interest on these bonds is collateralized by a pledge of and lien upon the net revenues derived from the operation of the Authority's wastewater utility and other monies including investments held in certain accounts established by the bond resolution. Under the bond resolution, the Authority will fix, establish, maintain and collect the wastewater rates and revise the same from time to time, whenever necessary, that will always provide in each fiscal year, (a) net revenues adequate at all times to pay in each fiscal year at least one hundred ten percent (110%) of the annual debt service requirement becoming due in such fiscal year on each series of outstanding bonds or (b) net revenues, together with impact fees collected, adequate to pay at least one hundred twenty percent (120%) of the current annual debt service requirement becoming due in such fiscal year on the outstanding bonds. The rates will not be reduced to a level that would be insufficient to provide net revenues fully adequate for the purposes provided by the bond resolution.

For the current year, debt service requirements and total pledged wastewater revenue to meet the 110% test were \$853,947 and \$2,339,263, respectively.

Interest Rate Swap

On September 30, 2022, the Authority was a party to a synthetic fixed rate swap agreement. The following are disclosures of pertinent aspects of this agreement. The synthetic fixed rate swap was determined to be an effective hedge and therefore follows hedge accounting where the transaction is strictly a statement of net position transaction. Since the fair value was in a negative position, the swap is recorded as a derivative liability with a corresponding deferred outflow of resources which represent the accumulated change in fair value of the swap.

Objective

In connection with the Florida Keys Aqueduct Authority Series 2006 water revenue and revenue refunding bonds, issued in April 2006 as variable rate securities bearing interest at a weekly interest rate, the Authority simultaneously executed a floating-to-fixed interest rate swap (swap) to lock in a synthetic fixed cost of borrowing. The swap structure was used as a means to lower the Authority's borrowing cost when compared to a traditional fixed-rate bond issue and as a hedge against variable interest rate exposure. The Series 2006 bonds were initially issued at a weekly interest rate. These bonds were refunded by Series 2008 bonds in June 2008. The swap is now tied to these bonds, which were also issued and are currently at a weekly interest rate. However, at the direction of the Authority and in compliance with bond documentation, they could be converted to other modes of payment (daily, long term or auction rate).

Terms

The Authority executed the swap with Citigroup Financial Products, Inc. (Citi) in April 2006 with an expiration date of September 1, 2035. In April 2012, Citi was replaced as counterparty by the Bank of New York Mellon (counterparty). This transaction did not terminate the hedge accounting for this swap as a result in the change of

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Note 5. Long-term Liabilities (continued)

the counterparty. The swap has a notional amount of \$49,700,000 corresponding to the related Series 2008 bonds. Under the swap, the Authority pays a fixed rate of 3.832% and receives a variable rate computed as 64.46% of the 3-month LIBOR plus 20 basis points (see rates below). Additionally, the Authority pays annual transactional fees of .72% for remarketing services and letter of credit fees, bringing the total fixed rate paid by the Authority to 4.55%. The total synthetic interest rate can vary, however, due to a potential for mismatch between the floating rate paid by the Authority on the Series 2008 bonds (based on a weekly tax-exempt market rate equivalent to the Securities Industry and Financial Markets (SIFMA), and the floating rate received by the Authority from the Counterparty on the swap, (based on a percentage of a taxable 3-month LIBOR rate). This potential for mismatch between the rate on the Series 2008 bonds and the swap is referred to as basis risk.

As of September 30, 2022, the rates for the variable rate bonds and swap were as follows:

	Terms	Rates
		2022
Interest Rate Swap:		
Fixed payment to counterparty	Fixed	3.8320%
Variable payment from counterparty	LIBOR	2.6203%
Net interest rate swap payments		1.2117%
Series 2008 Variable Rate Bond Payments	Weekly Variable Rate	2.5200%
Remarketing liquidity and letter of credit fees		0.5600%
Synthetic interest rate on bonds		4.2917%

Fair Value

As of September 30, 2022, the swap had a negative fair value of \$3,296,363 indicating the amount that the Authority would have had to pay the counterparty to terminate the swap agreement. However, as of that date no event of termination had occurred. Since the coupons on the Authority's variable rate bonds adjust to changing interest rates, the bonds do not have a corresponding fair value increase. The fair value was estimated using the zero-coupon method. This method calculates the future net settlement payments required by the swap, assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement of the swap.

General

The derivative contract between the Authority and the counterparty is based on the International Swap Dealers Association Master Agreement, which includes standard termination events, such as failure to pay and bankruptcy. The Authority or the counterparty may terminate the swap if the other party fails to perform under the terms of the contract. A termination of the swap may result in the Authority making or receiving a termination payment.

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Note 5. Long-term Liabilities (continued)

Swap payments and associated debt

As of September 30, 2022, net swap payments, assuming current interest rates remain the same, for their term were as follows. As short-term rates fluctuate, the 2008 bonds' interest payments and net swap payment will vary.

Fiscal Year Ending September 30	Principal	Interest	Interest Rate Swap,Net	Total
2023-2027	\$ 15,905,000	\$ 6,744,738	\$ 2,491,284	\$ 25,141,022
2028-2032	19,805,000	4,068,218	1,486,288	25,359,506
2033-2035	14,170,000	885,962	320,620	15,376,582
	<u>\$ 49,880,000</u>	<u>\$ 11,698,918</u>	<u>\$ 4,298,192</u>	<u>\$ 65,877,110</u>

Credit risk

As of September 30, 2022, the Authority is not exposed to credit risk because the swap had a negative fair value. However, should interest rates change and the fair value of the swap become positive, the Authority would be subject to credit risk in the amount of the swap's fair value. As of September 30, 2022, the counterparty was rated A1 and A by Moody's Investors Service and Standard & Poor's, respectively.

Termination risk

If the counterparty to the swap defaults, or if the swap is terminated, the Authority will be exposed to the variable remarketing rate on the 2008 bonds. If the swap is terminated, the 2008 bonds would no longer carry a synthetic fixed rate. Also, if at the time of termination, the swap has a negative fair value, the Authority would be liable to the counterparty for a payment equal to the swap's fair value.

Basis risk

The swap exposes the Authority to basis risk should the relationship between LIBOR and the remarketing rate on the 2008 bonds converge, changing the overall synthetic fixed rate on the Series 2008 bonds. The effect of this difference in basis is indicated by the difference between the intended synthetic fixed rate (4.552%) and the overall synthetic fixed rate as of September 30, 2022 (4.2917%). If a change occurs in the relationship between taxable and tax-exempt interest rates, the Authority's overall cost of borrowing will be impacted.

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Note 5. Long-term Liabilities (continued)

The future principal maturity amounts and related interest costs for all long-term debt are as follows:

Fiscal year ending September 30	Bonds			Credit due to US Government		
	Principal	Interest	Total	Principal	Interest	Total
2023	\$ 5,575,000	\$ 7,638,680	\$ 13,213,680	\$ 1,198,474	\$ 1,146,448	\$ 2,344,922
2024	5,835,000	7,406,160	13,241,160	1,258,770	1,086,151	2,344,922
2025	37,025,000	7,172,693	44,197,693	1,322,100	1,022,821	2,344,922

2048-2052	9,440,000	713,750	10,153,750	2,230,059	2,620,352	4,850,411
2053-2057				2,861,965	1,988,446	4,850,411
2058-2062				3,672,928	1,177,483	4,850,411
2063-2067				2,766,601	224,484	2,991,085
Totals	\$ 186,820,000	\$ 87,232,768	\$ 274,052,768	\$ 23,580,448	\$ 25,546,401	\$ 49,126,849

Lease Liabilities

The Authority has entered into agreements to lease certain equipment. The lease agreements qualify as other than short-term leases under GASB 87 and, therefore, have been recorded at the present value of the future minimum lease payments as of the date of their inception.

On 01/19/2022, the Authority entered into a 60-month lease as Lessee for the use of Pitney Bowes mailing equipment at Administration building in Key West. An initial lease liability was recorded in the amount of \$10,449. As of 09/30/2022, the value of the lease liability is \$9,437. The Authority is required to make quarterly fixed payments of \$546. The lease has an interest rate of 1.7540%. The Equipment estimated useful life is equivalent to the term of the lease as of the contract commencement. The value of the right to use asset as of 09/30/2022 of \$10,449 with accumulated amortization of \$1,463.

On 12/14/2021, the Authority entered into a 48-month lease as Lessee for the use of Xerox Copiers. An initial lease liability was recorded in the amount of \$16,724. As of 09/30/2022, the value of the lease liability is \$15,634. The Authority is required to make monthly fixed payments of \$409. The lease has an interest rate of 1.1460%. The Equipment estimated useful life is equivalent to the term of the lease as of the contract commencement. The value of the right to use asset as of 09/30/2022 of \$16,724 with accumulated amortization of \$3,333.

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

The future minimum lease obligations and the net present value of these minimum lease payments as of September 30, 2022, were as follows:

Fiscal Year Ending September 30	Principal	Interest	Total
2023	\$ 6,782	\$ 306	\$ 7,088
2024	6,873	216	7,089
2025	6,965	124	7,089
2026	3,367	45	3,412
2027	1,084	7	1,091
	<u>\$ 25,071</u>	<u>\$ 698</u>	<u>\$ 25,769</u>

Other disclosures related to debt, including direct borrowings and direct placements

The Authority currently does not have any open or unused lines of credit or have assets pledged as collateral for debt. The debt agreement for the Authority's current bonds is collateralized by a pledge of and lien upon the net revenues derived from the operation of the Authority's water and wastewater utility. Under the bond resolution, the Authority will fix, establish, maintain and collect utility rates that will always meet established debt service requirements. The enforceability of remedies related to the holders of outstanding bonds state that remedies specified in federal bankruptcy code may not be readily available or may be limited. There are no termination events or subjective acceleration clauses. In the event of a default, all pledged funds shall be first applied to the payment of the reasonable and proper charges, expenses, and liabilities of the trustee or receiver, Registrar and Paying agent and then applied to the payment of interest and principal or Redemption Price, if applicable.

The FCAA had no outstanding in-substance defeased debt at the end of fiscal year 2022.

Note 6. Rates for Service

Water

The Authority's water rate structure is an inverted block structure, with rates for consumption increasing with usage. In addition to consumption charges, customers are charged a monthly base facility charge, based on meter size, to recover a portion of fixed costs of providing service. If senior citizens and totally and permanently disabled veterans fall within certain income limitations, their base facility charge is waived.

The base facility charge for standard 5/8" meter customers at September 30, 2022 was \$17.04. The consumption blocks and related rates in effect on September 30, 2022, were as follows:

	Gallons	2022
Block 1	0-6,000	\$ 7.16
Block 2	6,001-12,000	10.46
Block 3	12,001-30,000	11.73
Block 4	30,001-50,000	13.08
Block 5	>50,000	14.36

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Note 6. Rates for Service (continued)

The rates are adjusted each year for inflation using a standard indexing formula. The Authority has contractual agreements with the United States Navy (the Navy) that define water rates charged for water used on Navy properties. The Navy pays the same base facility charges as other customers and pays a flow charge of \$4.48 per thousand gallons for all water used.

Wastewater

The Authority provides wastewater service to certain areas of the Florida Keys. The rate structure is similar to the water rate structure, with each district having a base facility charge and a flow charge. The flow charge is based on water flows. Flows are capped at 10,000 gallons for wastewater billing purposes for single-family dwelling customers. The base facility charge for standard 5/8" meter customers at September 30, 2022 was \$27.53. The flow charged on the first 10,000 gallons was \$10.42 per thousand gallons.

Reclaimed water

Rates for reclaimed water are 50% of potable water rates. There is no base facility charge for reclaimed water.

Note 7. Other Operating Revenue

Other operating revenue consisted of the following at September 30, 2022:

	2022
Penalty charges	\$ 545,868
Service and installation charges	1,165,718
Hydrant rental fees	76,500
Front footage fees	29,549
Total other operating revenue	<u>1,817,635</u>
Navy water system operations charge	2,443,632
Navy wastewater system operations charge	1,501,741
Total other operating revenue Navy	<u>3,945,373</u>
Total	\$ 5,763,008

Note 8. Risk Retention

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Authority carries commercial insurance for risks of loss. The Authority retains a certain level of risk relating to employee health insurance. A cash reserve account of \$346,340 is set aside to pay employee health claims. The Authority has a stop-loss insurance policy that covers individual claims in excess of \$150,000. Based on the duration period of claims, management determined that any claims incurred but not reported (IBNR) are insignificant. There were no significant reductions in insurance coverage in the current year from coverage to the prior year. Flood insurance coverage is limited to \$500,000 per covered location due to statutory limitations. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past four fiscal years. There were eleven open claims on September 30, 2022, covered by insurance. In addition, a contingency reserve has been established to cover uninsured losses.

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Note 8. Risk Retention (continued)

As of September 30, 2022, the total liabilities on pending claims that are included under current liabilities in other liabilities on the statement of net position is as follows:

	2022	2021
Claims payable, beginning of year	\$ 326,527	\$ 207,913
Incurred claims	4,715,455	3,564,405
Payments on claims	(4,654,505)	(3,445,791)
Claims payable, end of year	<u>\$ 387,477</u>	<u>\$ 326,527</u>

Note 9. Commitments and Contingencies

Construction commitments

The Authority had contractual commitments of \$440,288 on September 30, 2022, for design and construction of capital projects and general contractual commitments.

Leases

The Authority was a party to a 99-year lease with Monroe County which provided for the Authority to operate and maintain county-owned wastewater systems, including setting rates sufficient to pay for all operating costs. In October 2021, Monroe County transferred ownership of these wastewater systems to the Authority. The Authority is currently under lease agreements for office equipment and is currently leasing office space under a month-to-month contract and cancelable with 30 day notice. Rent expense for the fiscal year ended September 30, 2022, was \$46,488.

Legal Matters

The Authority is involved in various legal disputes which have arisen in the normal course of business. It is the opinion of management that the eventual outcome of these matters will not have a material adverse effect on the financial condition of the Authority.

Potential Legal and Legislative Changes

The Authority had an interlocal agreement with the Monroe County Board of County Commissioners (BOCC) providing funding for the implementation of wastewater initiatives in Monroe County. This interlocal agreement has ended with the completion of wastewater initiatives identified by the Monroe County Board of County Commissioners and the transfer of those wastewater systems to the Authority.

Water Main Extension Rebates

Customers are entitled to a water main extension rebate for future connections when they are required to extend a pipeline larger than certain specifications. Rebates are payable at the time connections are made.

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Note 10. Retirement Plan

General Information

All of the Authority's employees participate in the Florida Retirement System (FRS). As provided by Chapters 121 and 112, Florida Statutes, the FRS provides two cost-sharing, multiple-employer defined benefit plans administered by the Florida Department of Management Services, Division of Retirement, including the FRS Pension Plan (Pension Plan) and the Retiree Health Insurance Subsidy (HIS Plan). Under Section 121.4501, Florida Statutes, the FRS also provides a defined contribution plan (Investment Plan) alternative to the Pension Plan, which is administered by the State Board of Administration (SBA). As a general rule, membership in the FRS is compulsory for all employees working in a regularly established position for a state agency, county government, district school board, state university, community college, or a participating city or special district within the State of Florida. The FRS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefits are established by Chapter 121, Florida Statutes, and Chapter 60S, Florida Administrative Code. Amendments to the law can be made only by an act of the Florida State Legislature. The long-term expected rate of return on Pension Plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Annual Arithmetic Return	Compound Annual (Geometric) Return	Standard Deviation
Cash equivalents	1.0%	2.6%	2.6%	1.1%
Fixed income	19.8%	4.4%	4.4%	3.2%
Global equity	54.0%	8.8%	7.3%	17.8%
Real Estate	10.3%	7.4%	6.3%	15.7%
Private Equity	11.1%	12.0%	8.9%	26.3%
Strategic investments	3.8%	6.2%	5.9%	7.8%
Total	100.0%			

Assumed Inflation- Mean

2.40%

1.30%

(1) As outlined in the Pension Plan's investment policy

The State of Florida annually issues a publicly available financial report that includes financial statements and required supplementary information for the FRS. The latest available report may be obtained by writing to the State of Florida Division of Retirement, Department of Management Services at P.O. Box 9000, Tallahassee, Florida 32315-9000, or visiting their website, www.dms.myflorida.com/workforce_operations/retirement/publications.

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Note 10. Retirement Plan (continued)

Pension Plan

Plan Description

The Pension Plan is a cost-sharing multiple-employer defined benefit pension plan, with a Deferred Retirement Option Program (DROP) for eligible employees.

Benefits Provided

Benefits under the Pension Plan are computed on the basis of age, average final compensation, and service credit. For Pension Plan members enrolled before July 1, 2011, Regular class members who retire at or after age 62 with at least six years of credited service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 1.6% of their final average compensation based on the five highest years of salary, for each year of credited service.

Vested members with less than 30 years of service may retire before age 62 and receive reduced retirement benefits. Senior Management Service class members who retire at or after age 62 with at least six years of credited service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 2.0% of their final average compensation based on the five highest years of salary for each year of credited service.

For Pension Plan members enrolled on or after July 1, 2011, the vesting requirement is extended to eight years of credited service for all these members and increasing normal retirement to age 65 or 33 years of service regardless of age for Regular and Senior Management Service members. Also, the final average compensation for all these members will be based on the eight highest years of salary. As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the Pension Plan before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost of living adjustment is three percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of three percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by three percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

In addition to the above benefits, the DROP program allows eligible members to defer receipt of monthly retirement benefit payments while continuing employment with a FRS employer for a period not to exceed 60 months after electing to participate. Deferred monthly benefits are held in the FRS Trust Fund and accrue interest. There are no required contributions by DROP participants.

Contributions

Effective July 1, 2011, all enrolled members of the FRS, other than DROP participants, are required to contribute 3% of their salary to the FRS. In addition to member contributions, governmental employers are required to make contributions to the FRS based on state-wide contribution rates established by the Florida Legislature. These rates are updated as of July 1 of each year. The employer contribution rates by job class for the periods from October 1, 2021, through June 30, 2022, and from July 1, 2022, through September 30, 2022, respectively, were as follows: Regular 10.82% and 11.91%, Senior Management Service 29.01% and 31.57% and DROP participants 18.34% and 18.60%. These employer contribution rates include 1.66% HIS Plan subsidy for the period October 1, 2021, through

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Note 10. Retirement Plan (continued)

September 30, 2022. The Authority's contributions, including employee contributions, to the Pension Plan totaled \$3,622,196 for the fiscal year ended September 30, 2022.

Pension Liabilities, Pension Expense (Income), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension Plan

On September 30, 2022, the Authority reported a liability of \$19,724,885 for its proportionate share of the Pension Plan's net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022. The Authority's proportionate share of the net pension liability was based on the Authority's 2021-22 fiscal year contributions relative to the 2020-21 fiscal year contributions of all participating members. On June 30, 2022, the Authority's proportionate share was 0.053%, which was an increase of 0.002% from its proportionate share measured as of June 30, 2021.

For the fiscal year ended September 30, 2022, the Authority recognized pension expense (income) of \$540,155. In addition, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 936,818	\$ -
Change of assumptions	2,429,198	-
Net difference between projected and actual earnings on Pension Plan investments	1,302,432	-
Changes in proportion and differences between Authority's Pension Plan contributions and proportionate share of contributions	1,055,847	440,568
Authority's Pension Plan contributions subsequent to the measurement date	637,836	-
Total	\$ 6,362,131	\$ 440,568

The deferred outflows of resources related to the Pension Plan, totaling \$637,836 resulting from the Authority's contributions to the Plan subsequent to the measurement date, but before the end of the employer's contributing reporting period, will be recognized as a reduction of the net pension liability in the subsequent fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the Pension Plan will be recognized in pension expense (income) as follows:

Fiscal Year Ending September 30	Amount
2023	\$ 1,258,679
2024	525,225
2025	(237,548)
2026	3,511,458
2027	225,913
	\$ 5,283,727

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Note 10. Retirement Plan (continued)

Actuarial Assumptions

The total pension liability in the July 1, 2022, actuarial valuation was determined using the following actuarial assumption, applied to all periods included in the measurement:

Inflation	2.40 %
Salary increases	3.25%, average, including inflation
Investment rate of return	6.70%, net of pension plan investment expense, including inflation

Mortality rates were based on PUB-2010 base table varies by member category and sex, projected generationally with Scales MP-2018 details in valuation report. The actuarial assumptions used in the July 1, 2022, valuation was based on the results of an actuarial experience study for the period July 1, 2013 through June 30, 2018.

Discount Rate

The discount rate used to measure the total pension liability was 6.70%. The Pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculation of the total pension liability is equal to the long-term expected rate of return.

Sensitivity of the Authority's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following represents the Authority's proportionate share of the net pension liability calculated using the discount rate of 6.70%, as well as what the Authority's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.70%) or one percentage point higher (7.70%) than the current rate:

	1% Decrease (5.70%)	Discount Rate (6.70%)	1% Increase (7.70%)
Authority's Proportionate share of the net pension liability	\$ 34,112,832	\$ 19,724,885	\$ 7,694,849

Pension Plan Fiduciary Net Position

Detailed information regarding the FRS Pension Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State-Administered Systems Annual Comprehensive Financial Report.

Payables to the Pension Plan

On September 30, 2022, the Authority reported a payable in the amount of \$427,643, or outstanding contributions to the Pension Plan required for the fiscal year ended September 30, 2022.

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Note 10. Retirement Plan (continued)

HIS Plan

Plan Description

The HIS Plan is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

Benefits Provided

For the fiscal year ended September 30, 2022, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month. To be eligible to receive these benefits, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

Contributions

The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended September 30, 2022, the HIS contribution for the period October 1, 2021, through June 30, 2022, and from July 1, 2022, through September 30, 2022, was 1.66%. The Authority contributed 100% of its statutorily required contributions for the current and preceding three years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or cancelled.

The Authority's contributions to the HIS Plan totaled \$50,298 for the fiscal year ended September 30, 2022.

Pension Liabilities, Pension Expense (Income), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to HIS Plan

On September 30, 2022, the Authority reported a liability of \$6,679,431 for its proportionate share of the HIS Plan's net pension liability. The net pension liability was measured as of September 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022. The Authority's proportionate share of the net pension liability was based on the Authority's 2021-22 fiscal year contributions relative to the 2020-21 fiscal year contributions of all participating members. On June 30, 2022, the Authority's proportionate share was 0.063%, which was an increase of .001% from the proportionate share measured as of June 30, 2021. For the fiscal year ended September 30, 2022, the Authority recognized pension expense (income) of (\$45,646). In addition, the Authority reported deferred outflows of resources and deferred in flows of resources related to pensions from the following sources:

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Note 10. Retirement Plan (continued)

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 202,737	\$ 29,390
Change of assumptions	382,869	1,033,304
Net difference between projected and actual earnings on HIS Plan investments	9,670	-
Change in proportion and differences between Authority's HIS Plan contributions and proportionate share of contributions	274,947	307,621
Authority's HIS Plan contributions subsequent to the measurement date	102,503	-
	\$ 972,726	\$ 1,370,315

The deferred outflows of resources related to the HIS Plan, totaling \$102,503 resulting from Authority's contributions to the HIS Plan subsequent to the measurement date, but before the end of the employer's contributing reporting period, will be recognized as a reduction of the net pension liability in the subsequent fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the HIS Plan will be recognized in pension expense (income) as follows:

Fiscal Year Ending September 30:	Amount
2023	\$ (138,339)
2024	(60,700)
2025	(65,729)
2026	(53,250)
2027	(123,030)
Thereafter	(59,044)
	\$ (500,092)

Actuarial Assumptions

The total pension liability in the July 1, 2022, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.40 %
Salary increases	3.25%, average, including inflation
Investment rate of return	N/A

Mortality rates were based on the Generational PUB-2010 with Projection Scale MP-2018.

The actuarial assumptions used in the July 1, 2022, valuation was based on the results of an actuarial experience study for the period July 1, 2013 through June 30, 2018.

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Note 10. Retirement Plan (continued)

Discount Rate

The discount rate used to measure the total pension liability was 3.54%. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date.

Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-year Bond Municipal Bond Index was adopted as the applicable municipal bond index.

Sensitivity of the Authority's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following represents the Authority's proportionate share of the net pension liability calculated using the discount rate of 3.54%, as well as what the Authority's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (2.54%) or one percentage point higher (4.54%) than the current rate:

	1% Decrease 2.54%	Current Discount Rate 3.54%	1% Increase 4.54%
Authority's proportionate share of the net pension liability	\$ 7,641,817	\$ 6,679,431	\$ 5,883,076

Pension Plan Fiduciary Net Position

Detailed information regarding the HIS Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State-Administered Systems Annual Comprehensive Financial Report.

Payables to the HIS Plan

On September 30, 2022, the Authority reported a payable in the amount of \$7,218 for outstanding contributions to the HIS Plan required for the fiscal year ended September 30, 2022.

Summary of Pension Components

Fiscal Year Ending September 30, 2022

	Pension	HIS	Total
Deferred Outflows	\$ 6,362,131	\$ 972,726	\$ 7,334,857
Deferred Inflows	(440,568)	(1,370,315)	(1,810,883)
Net pension liability	(19,724,885)	(6,679,431)	(26,404,316)
Pension Expense (Income)	540,155	(45,646)	494,509

Investment Plan

The SBA administers the defined contribution plan officially titled the FRS Investment Plan. The investment Plan is reported in the SBA's annual financial statements and in the State of Florida Annual Comprehensive Financial Report. As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined benefit plan. Authority employees participating in DROP are not eligible to participate

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Note 10. Retirement Plan (continued)

in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class as the Pension Plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.06 percent of payroll and by forfeited benefits of plan members. Allocations to the investment member's accounts during the 2021-22 fiscal year, as established by Section 121.72, Florida Statutes, are based on a percentage of gross compensation, by class, as follows: Regular class 6.30%, Special Risk Administrative Support class 7.95%, Special Risk class 14.00%, Senior Management Service class 7.67%.

For all membership classes, employees are immediately vested in their own contributions and are vested after one year of service for employer contributions and investment earnings. If an accumulated benefit obligation for service credit originally earned under the Pension Plan is transferred to the Investment Plan, the member must have the years of service required for Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Non-vested employer contributions are placed in a suspense account for up to five years. If the employee returns to FRS-covered employment within the five-year period, the employee will regain control over their account. If the employee does not return within the five-year period, the employee will forfeit the accumulated account balance. For the fiscal year ended September 30, 2022, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the Authority. After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

The Authority's Investment Plan contribution (pension expense) totaled \$642,817 for the fiscal year ended September 30, 2022.

Note 11. Other Post-Employment Benefits (OPEB)

Plan Description

The Authority provides an optional single employer defined benefit post-employment healthcare plan to eligible individuals. The plan allows its employees and their beneficiaries to continue to obtain health insurance benefits upon retirement. Certain employees in a closed benefits class are provided continuation of coverage fully paid by the Authority or receive a supplement from the Authority. Employees in the open benefits class may continue coverage at their own cost. The benefits of the plan conform to Florida Statutes, which are the legal authority for the plan. The OPEB plan has no assets and is not administered through a trust or equivalent arrangement. Additionally, the OPEB plan does not issue a separate financial report.

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Note 11. Other Post-Employment Benefits (OPEB) (continued)

Members Covered

Members covered as of October 1, 2020, the date of actuarial valuation, the following employees were covered by the benefit terms:

Membership

Inactive employees or beneficiaries currently receiving benefit payments	33
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	<u>275</u>
Total	<u><u>308</u></u>

Funding Policy and Annual OPEB Cost

Retirees and their beneficiaries pay the same group rates as are charged to the Authority for active employees by its healthcare provider. However, the Authority's actuaries, in their actuarial valuation, calculate an offset to the cost of these benefits as an employer contribution, based upon an implicit rate subsidy. This offset equals the total age-adjusted costs paid by the Authority for its active employees for coverage of the retirees and their dependents for the year net of the retiree's own payments for the year.

The annual OPEB cost is calculated based on the annual required contribution of the employer, an amount actuarially determined in accordance with GASB Statement No. 75. The annual required contribution represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and to amortize any unfunded actuarial liabilities over a period not to exceed thirty years. The required contribution rate for the employer is based on actual costs (pay as you go). The plan members are not required to contribute.

The annual OPEB cost for the Authority for 2022, and the related information is as follows:

	<u>2022</u>
Service Cost	\$ 178,501
Interest	255,409
Benefit Changes	-
Experience	-
Assumption Changes	363,571
Benefit Payments	<u>(310,333)</u>
Net Change in Total OPEB Liability	487,148
Total OPEB Liability - beginning	<u>10,495,977</u>
Total OPEB Liability - ending	<u><u>\$ 10,983,125</u></u>
Covered Employee Payroll *	\$ 22,086,230
Payroll: (A)/(B)	49.73%

*Estimated covered employee payroll based on pay provided as of respective valuation date. GASB 75 requires actual covered payroll for the measurement period.

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Note 11. Other Post-Employment Benefits (OPEB) (continued)

Total OPEB Liability, OPEB Expense (Income), Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

On September 30, 2022, the Authority reported a liability of \$10,983,125 for its total OPEB liability. The liability was measured as of October 1, 2021, and the OPEB liability was determined by an actuarial valuation as of October 1, 2020.

For the fiscal year ended September 30, 2022, the Authority recognized an OPEB expense (income) of \$(58,831). In addition, the Authority reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between actual and expected experience	\$ 59,483	\$ 1,253,591
Change of assumptions and other inputs	1,560,907	1,198,575
Contributions subsequent to measurement period	354,539	-
Total	\$ 1,974,929	\$ 2,452,166

Contributions subsequent to the measurement date (deferred outflow of resources) are to be recognized as a reduction the total OPEB liability in the subsequent fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the OPEB plan will be recognized in OPEB expense (income) as follows:

Fiscal Year Ending September 30	Amount
2023	\$ (138,202)
2024	(138,202)
2025	(138,202)
2026	(138,202)
2027	(138,202)
Thereafter	(140,766)
	\$ (831,776)

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Note 11. Other Post-Employment Benefits (OPEB) (continued)

Discount Rate

The discount rate used to measure the total OPEB liability was 2.19%. In general, the discount rate for calculating the total OPEB liability were based on the Fidelity 20-Year Municipal GO AA Index – daily rate closest or equal to but not later than the respective measurement dates.

Sensitivity of the Authority’s Total OPEB Liability to Changes in the Discount Rate

The following represents the Authority’s total OPEB liability calculated using the discount rate of 2.19%, as well as what the Authority’s total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (1.19%) or one percentage point higher (3.19%) than the current rate:

	Discount Rate		
	1% Decrease (1.19%)	(2.19%)	1% Increase (3.19%)
Authority's total OPEB liability	\$ 12,707,374	\$ 10,983,125	\$ 9,577,065

Progress presented as required supplementary information is designed to provide multi-year trend information to show whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. However, the Authority has not contributed assets to the plan at this time.

Sensitivity of the Total OPEB Liability to the Trend Rate Assumption

	1% Decrease	Current Trend Rates	1% Increase
Trend Rates			
- Medical	5.5% to 2.8%	6.5% to 3.8%	7.5% to 4.8%
- Dental	2.80%	3.80%	4.80%
Total OPEB Liability	\$ 10,018,495	\$ 10,983,125	\$ 12,178,215

Actuarial methods and assumptions

Projections of benefits are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the Authority and the plan members to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Significant methods and assumptions were as follows:

Notes to Financial Statements (continued)

For the fiscal year ended September 30, 2022

Note 11. Other Post-Employment Benefits (OPEB) (continued)

Actuarial Assumptions

Actuarial Valuation Date	October 1, 2020
Measurement Date of the Total OPEB liability	October 1, 2021
Employer's Fiscal Year End (Reporting Date)	September 30, 2022
Inflation	2.40% - not explicitly used in valuation
Projected salary increases	3.4% - 8.20%
Mortality Rates	Healthy members based on various PUB-2010 base tables, generational mortality using gender-specific MP-2018 mortality improvement scales. Disabled Employees based various PUB-2010 Disabled mortality tables and no projected improvements.
Healthcare cost trends	Based on the Getzen Model starting at 6.5% for 2020 and gradually decreasing to an ultimate rate of 3.8% in 2041; 3.8% for dental & vision for all years.
Retiree's share of benefit related costs	0% for Class 1 and Class 5 employees hired on or before June 30, 2004. Class 1 or Class 5 employees hired on or after July 1, 2004, receive \$10 per month per year of service through FCAA. Class 2 employees receive \$5 per month per year of service through FCAA. Class 1, 2, and 5 employees hired or promoted prior to May 1, 2016, share 0% of life insurance costs.

Note 12. Related Party Transactions

For the fiscal year ended September 30, 2022, the Authority entered into transactions with companies owned by one of its Board members. These companies were paid \$5,007,282 for construction related costs with contractual commitment balances of approximately \$440,288 for capital construction projects remaining.

Statistical Section Summary

This section of the Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and supplementary information says about the Authority's overall financial health. The information is grouped into the categories described below.

Contents

Financial Trends

These schedules contain trend information to help the reader understand how the Authority's financial performance and well-being have changed over time. 76

Rates and Revenues

These schedules contain trend information to help the reader assess the Authority's ability to generate revenue through user fees. 78

Debt

These schedules present information which helps the reader assess the affordability of the Authority's current levels of outstanding debt. 80

Demographic and Economic Information

These schedules offer demographic and economic indicators that help the reader understand the environment with which the Authority's financial activities take place. 82

Operating Information

These schedules contain data to help the reader understand how the information in the Authority's financial report relates to the services provided. 88

MCL = Maximum Contaminant Level

MFL = Million Fibers per Liter greater than 10 micrometers

ND = Analyzed for but not detected/value is below reportable limits

NR = Not required

NTU = Nephelometric Turbidity Units

pCi/L = picocuries per liter

TON = Threshold Odor Number

*mg/l = milligrams per liter (except asbestos, color, odor and pH)

**pH has no health effects. FCAA maintains pH at 9.0 -9.5 to aid in corrosion control and to improve disinfection stability.

***Fluoride also has a secondary standard

Independent Auditors' Report

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Audit Committee, Board of Directors and Executive Director

Florida Keys Aqueduct Authority

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Florida Keys Aqueduct Authority (the "Authority"), which comprise the statement of net position as of September 30, 2022, and the related statements of revenues, expenses and changes in net position, and cash flows for the fiscal year then ended, and the related notes to the financial statements, and have issued our report thereon dated March 10, 2023.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Independent Auditors' Report (continued)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report (continued)

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR MAJOR FEDERAL PROGRAM AND STATE PROJECT; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE REQUIRED BY THE UNIFORM GUIDANCE AND CHAPTER 10.550, RULES OF THE AUDITOR GENERAL

To the Audit Committee, Board of Directors, and Executive Director

Florida Keys Aqueduct Authority

Report on Compliance for Major Federal Program and State Project

Opinion on Major Federal Program and State Project

We have audited the Florida Keys Aqueduct Authority (the "Authority") compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement*, and the requirements described in the *State of Florida Department of Financial Services' State Projects Compliance Supplement*, that could have a direct and material effect on each of the Authority's major federal program and state project for the fiscal year ended September 30, 2022. The Authority's major federal program and state project are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Authority complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each major federal program and state project for the fiscal year ended September 30, 2022.

Basis for Opinion on Major Federal Program and State Project

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and Chapter 10.550, Rules of the Auditor General (Chapter 10.550). Our responsibilities under those standards and the Uniform Guidance and Chapter 10.550, are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Authority and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program and state project. Our audit does not provide a legal determination of the Authority's compliance with the compliance requirements referred to above.

Independent Auditors' Report (continued)

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Authority's federal programs and state project.

Auditors' Responsibility for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Authority's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and there is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, Uniform Guidance, and Chapter 10.550, will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgement made by a reasonable user of the report on compliance about the Authority's compliance with the requirements of each major federal program and state project as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, the Uniform Guidance, and Chapter 10.550, we:

- exercise professional judgement and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Authority's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the Authority's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, and Chapter 10.550, but not for the purposes of expressing an opinion on the effectiveness of the Authority's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Independent Auditors' Report (continued)

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program or state project on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program or state project will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program or state project that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and Chapter 10.550. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards and State Financial Assistance Required by the Uniform Guidance and Chapter 10.550

We have audited the financial statements of the Authority as of and for the fiscal year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements. We issued our report thereon dated March 10, 2023, which contained an unmodified opinion on those financial statements. Our audit was performed for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and Chapter 10.550, and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial

Independent Auditors' Report (continued)

statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards and state financial assistance is fairly stated in all material respects in relation to the financial statements as a whole.

Notes to Schedule of Expenditures of Federal Awards

FLORIDA KEYS AQUEDUCT AUTHORITY

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2022

NOTE 1. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards and state financial assistance (the "Schedule") presents the expenditure activity of all federal awards and state financial assistance of the Florida Keys Aqueduct Authority (the "Authority") for the fiscal year ended September 30, 2022. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and Chapter 10.550, Rules of the Auditor General. Because the Schedule presents only a selected portion of the operations of the Authority, it is not intended to and does not present the financial position, changes in net position or cash flows of the Authority.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance and the Florida Single Audit Act, wherein certain types of expenditures are not allowable or are limited as to reimbursements.

NOTE 3. INDIRECT COST RATE

The Authority has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

NOTE 4. INDIRECT COST RATE

No amounts were provided to subrecipients during the fiscal year ended September 30, 2022.

MANAGEMENT LETTER IN ACCORDANCE WITH THE RULES OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA

To the Audit Committee, Board of Directors, and Executive Director

Florida Keys Aqueduct Authority

Report on the Financial Statements

We have audited the financial statements of the Florida Keys Aqueduct Authority (the "Authority"), as of and for the fiscal year ended September 30, 2022, and have issued our report thereon dated March 10, 2023.

Auditors' Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards* (Uniform Guidance), and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards; Independent Auditors' Report on Compliance for Each Major Federal Program and State Project; Report on Internal Control Over Compliance; and Report on Schedule of Expenditures of Federal Awards and State Financial Assistance Required by the Uniform Guidance and Chapter 10.550, Rules of the Auditor General; Summary Schedule of Prior Audit Findings; Schedule of Findings and Questioned Costs; and Independent Accountants' Report on an examination conducted in accordance with AICPA Professional Standards, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports and schedules, which are dated March 10, 2023, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no findings or recommendations made in the prior year audit report.

Management Letter (continued)

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The Authority was established by Special Legislation 76-441 of the Laws of Florida. There are no component units.

Financial Condition and Management

Sections 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the Authority has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the Authority did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for the Authority. It is management's responsibility to monitor the Authority's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same. The financial condition assessment was performed as of fiscal year end.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Specific Information for Special Districts

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)6, Rules of the Auditor General, the Authority reported the required information in the Other Information Section found on page 97.

Specific Information for Special Districts with Non-Ad Valorem Special Assessments

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)7, Rules of the Auditor General, the Authority reported the required information in the Other Information Section found on page 97.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Management Letter (continued)

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal, State, and other granting agencies, the Board of Directors, the Audit Committee, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

Independent Accountants' Report

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE PURSUANT TO SECTION 218.415, FLORIDA STATUTES

To the Audit Committee, Board of Directors, and Executive Director

Florida Keys Aqueduct Authority

We have examined the Florida Keys Aqueduct Authority's (the "Authority") compliance with Section 218.415, Florida Statutes, Local Government Investment Policies, for the fiscal year ended September 30, 2022. Management of the Authority is responsible for the Authority's compliance with those specified requirements. Our responsibility is to express an opinion on the Authority's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the Authority complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the Authority complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the Authority's compliance with specified requirements.

In our opinion, the Authority complied, in all material respects, with Section 218.415, Florida Statutes for the fiscal year ended September 30, 2022.

This report is intended to describe our testing of compliance with Section 218.415, Florida Statutes and it is not suitable for any other purpose.

Marcum LLP

Miami, FL
