Preferred Wastewater Lateral Location Worksheet

Mark with an "X" the box in the diagram below where you want to have the FCAA sewer lateral located. If desired, you may indicate the distance from the side property line to the location you want. Be sure to include your street address. If your property borders more than one street please label your street of choice. Please note; Monroe County Code requires a separation between water and sewer service. If you plan on installing sewer pipe within five (5) feet of your water service please contact the Monroe County Plumbing Inspector at (305) 289-2549 for code requirements.

We will make every effort to accommodate your preferred location request. Strategically locating the lateral can save you money when it comes time for plumbing and connecting to the system. **This information must be submitted to and accepted by the FCAA prior to the installation of the wastewater connection point.**

If you need assistance with this form please contact Joshua Peele (305) 809-2636. Completed forms may be mailed to Joshua Peele at FCAA, 1100 Kennedy Drive, Key West, Florida, 33040, faxed to (305) 295-2223, or emailed to jpeele@FCAA.com
